

Camp Table Rock

Covid-19 Safety Procedures

It is the sincere desire of Camp Table Rock that every student and adult attending Camp would have a wonderful and safe experience. We will be doing everything within our power to keep students safe while at Camp Table Rock. This is Camp however, and we cannot guarantee that everyone will be kept six feet apart at all times - this would be impossible to do at Camp. We will however be implementing numerous safety procedures this summer. With all of these safety procedures in place the risk of someone contracting Covid-19 at Camp is extremely low.

Daily Procedures

1. Each person (including staff) will have their temperature taken each morning and recorded (if running a temperature). Each person will be asked the following questions.

- * Do you have a cough
- * Trouble breathing
- * Body aches
- * Headache
- * Abdominal pain

If anyone fails the test they will be quarantined, and taken to the Barry County Health Department in Cassville, Missouri and tested for Covid-19. (parents will be contacted immediately if there is a concern with their student.)

2. All staff, students and adult sponsors will be instructed to wash hands often throughout the day and to practice social distancing as much as possible.

Dining - *(Practice social distancing as much as is possible during all aspects of meal times)*

1. Keep 6' apart when in meal line and at the salad bar
2. Keep tables 6' apart
3. Allow no more than 10 at a table
4. Constantly be wiping food serving surfaces with Disinfectant

Chapel

1. Have no more than 10 chairs in a row
2. Keep rows of chairs 6' apart - if at all possible
3. Spray chairs with Disinfectant before each service
4. Clean and disinfect bathrooms before each service
5. Clean game tables several times daily
6. Have hand sanitizing stations located at key locations in Chapel

Small Groups

1. Practice social distancing as much as possible

Group games

1. Practice social distancing as much as possible
2. Plan group games that would allow for as much social distancing as possible
3. Disinfect game equipment with before each game

Dock & Boating Activities

1. Reduce number of students allowed on boat in order to practice social distancing as much as is possible for boating activities.
2. Do not allow activities that have students really close to each other such as double tubing.
3. Practice social distancing as much as possible on the dock and swimming platform.

Waterslide

1. Practice social distancing
2. Waterslide uses chlorinated and filtered water

Cabins

1. Cabins will be thoroughly cleaned and disinfected before each group arrives.
2. Disinfectant spray will be provided for each cabin so the cabin leader can disinfect surfaces on a daily basis.

Snak Shak

1. The Snak Shak counter tops, food serving surfaces and all areas will be disinfected numerous times through out the day.
2. Staff will be instructed to wash hands numerous times throughout the day.
